INTRODUCTION

Siddhars had given much more prominence to eye care in the ancient period. Siddha literature elaborates about 96 types of eye disease with its etiology, treatment method and preventive measures. This poster review about the *Ponnanganni Kirutham for Eye disease*.

AIM & OBJECTIVE

To provide an updated overview about Siddha Polyherbal formulation *Ponnanganni Kirutham for all types of Eye disease*.

MATERIALS & METHODS

Ponnanganni Kirutham is a polyherbal formulation mentioned in *Siddha literature Vaithiya Kalanjiam for all types of Eye diseases*.

REVIEW OF LITERATURE

DISCUSSION

The pharmacological actions and nutraceutical properties of Ponnanganni Kirutham may help to combat the *bacterial or viral conjunctivitis, glaucoma, age-related macular degeneration and refractive errors which is one of the leading cause of moderate to severe visual impairment, followed by cataract*.

CONCLUSION

Due to lack of health concern and excess use of smartphones in this current scenario, prevalence and incidence of Eye diseases are increasing. Further research on this polyherbal formulation Ponnanganni Kirutham will help to enhance the ocular health and *better remedy for diabetic retinopathy, glaucoma, retinoblastoma and retinal detachment etc which supports to attain a new milestone in Siddha ophthalmology*.
